

OHIO'S EGG, CHICKEN AND TURKEY FARMS

ECONOMIC IMPACT ON THE STATE

Agriculture is Ohio's number-one economic contributor (\$105 billion). And, Ohio's egg, chicken and turkey farms contribute significantly to that number, providing valuable jobs and economic benefits to the state's rural communities.

TOTAL IMPACT OF OHIO'S EGG, CHICKEN AND TURKEY FARMS

- Ohio's egg, chicken and turkey farms create more than **19,619 jobs** annually generating **\$690 million** in annual earnings to the state's economy.
- The combined market value of egg, turkey and chicken production in Ohio was **\$690 million** annually from 2012-2016.
- Additionally, the sectors contribute **\$2.2 billion** in indirect economic impact for a total contribution of **\$3.3 billion** in output* to Ohio.
- Ohio's egg, chicken and turkey farmers use **33 million** bushels of the state's corn crop and **16.2 million** bushels of Ohio's soybean crop annually.

EGG PRODUCTION

- Ohio is one of the largest egg farming states in the nation, with **9.5 billion** eggs produced in 2016.
- The total value of eggs produced in 2016 was more than **\$411 million**.
- From 2012-2016, Ohio's egg sector contributed **\$2.1 billion** in output to Ohio.
- Egg production is responsible for the creation of **12,503 jobs** annually and **\$438 million** in earnings.

TURKEY PRODUCTION

- Ohio ranks **9th** nationally in turkey production with more than **236 million** pounds of turkey produced.
- The value of turkey produced in Ohio in 2016 was **\$195 million**.
- From 2012-2016, the turkey sector contributed over **\$486 million** in output to Ohio.
- Turkey production is responsible for the creation of **2,879 jobs** annually and **\$101 million** in earnings.

CHICKEN PRODUCTION

- Ohio ranks **16th** nationally in chicken production (in poundage) with more than **475 million** pounds.
- The total value of chickens produced in Ohio in 2016 was over **\$277 million**.
- From 2012-2016, the chicken sector contributed **\$719 million** in output to Ohio.
- Chicken production is responsible for the creation of **4,238 jobs** annually and **\$151 million** in earnings.

*The direct economic impact of the egg, chicken and turkey sectors in Ohio is measured by the increased income, employment and value of output generated by the industry itself. The indirect and induced economic impact of the sectors is the result of "economic multiplier effects." Multiplier effects are the result of additional expenditures made by those who are suppliers to the poultry community in Ohio, as well as from purchases made by those who derive income directly or indirectly from the poultry sector.
